

# PORTFOLIO WORSHOP

Presented by ACM-W

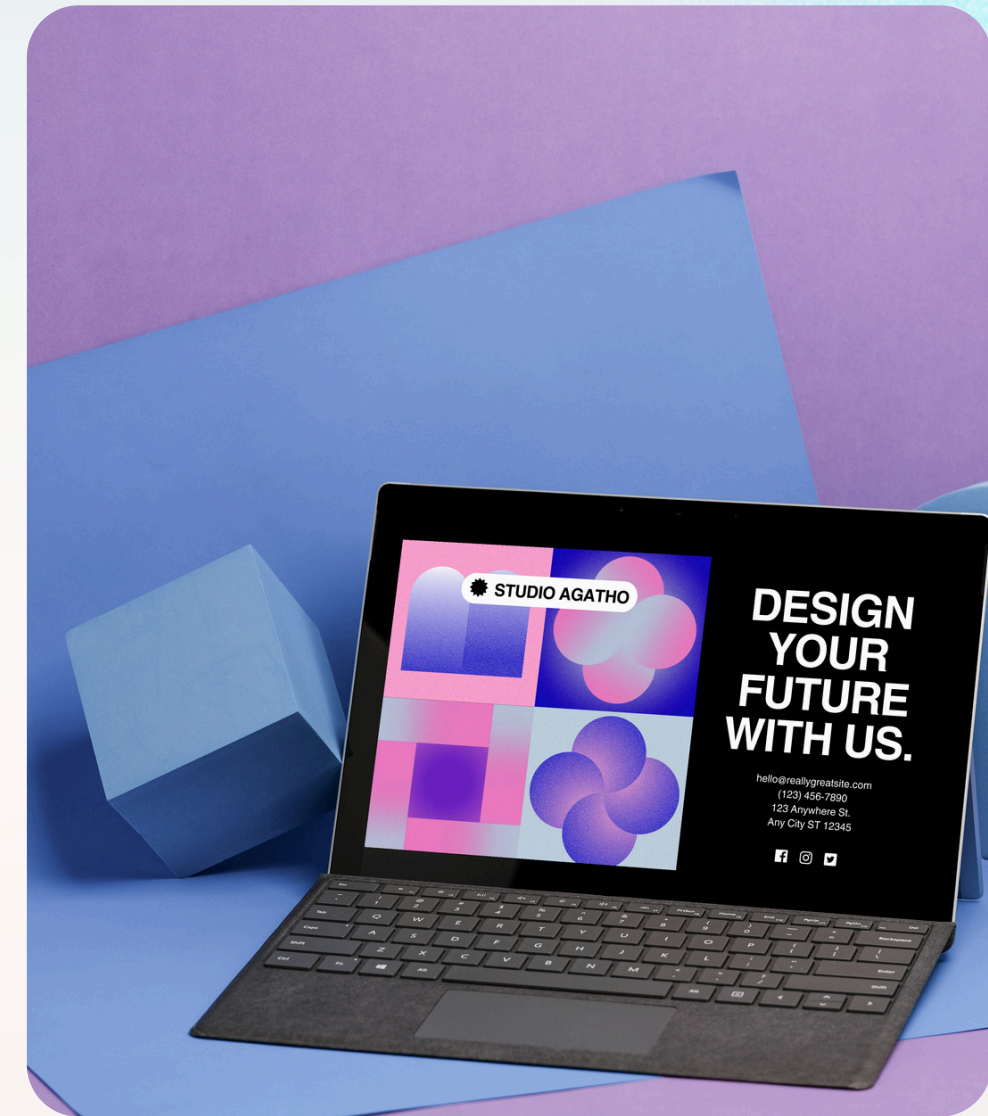

# What is ACM?

- ACM-W stands for Association for Computing Machinery
- support and advocate for women and gender minorities in computing

# What is a Portfolio?

A site showcasing your abilities and accomplishments to interviewers similar to a resume but with a visual format aspect.

# Why a portfolio?

## Reason 01

Learn about niche areas of computer science, how different technologies connect together while using in-demand tech stacks all while strengthening problem-solving and creativity skills.

## Reason 02

Showcase your skills to employers (it can count as experience) and use that to communicate which areas of computer science you wish to pursue.

## Reason 03

Build apps to solve your problems, these ideas can evolve into a startup if others also want the same problem solved.

# Tools

- Language wise: HTML, CSS, Javascript/Typescript
- Frameworks are powerful tools:
  - React, Vue.js, Angular, Next.js
- Styling: TailwindCss, SCSS
- Deployment: Vercel, Netlify, Github Pages, Railroad

# What to Include

**01**

**Include a brief description about your background showcase your personality**

**02**

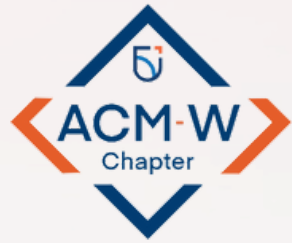

**List of Projects including details about each, and tech stack you used.**

**03**

**Adding your Resume, past job experience and any volunteer experience related to tech.**

**04**

**Adding a contact me section with your social links (linkedin, github, gmail, etc)**

Heather Meatherall

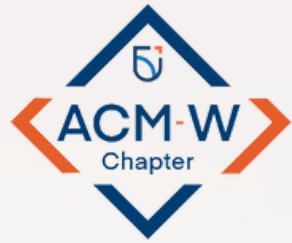

# HEATHER M

HEATHERMEAT7@GMAIL.COM

I'm a computer science student at Ontario Tech University with a passion for gaining new skills and experiences. I get excited about new technologies and I love designing and developing creative solutions to problems. I have a wide variety of skills and life experience that I bring to every task. I have a particular interest in data analysis, web development and QA, but I'll try anything once and I'm not afraid of a challenge!

My Journey

# Hello World!

👋 *How are you?*

My name is **Sarah Mathew** and I hope you are doing well!

🤔 *What am I doing right now?*

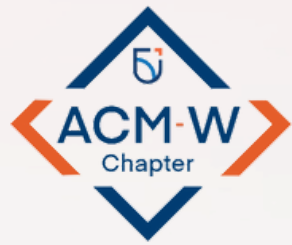

Thank you for asking! I'm a recent graduate of Computer Programming at Seneca Polytechnic and a current student at Ontario Tech University studying Computer Science.

I'm a passionate software developer excited to venture into the world of tech learning about new technologies and creating innovative solutions.

**Fun Fact:** In my free time, I enjoy playing video games, stargazing, and volunteering.
